

Ali Babamahmoudi

IT Support & Network Infrastructure | Managed Services

Toronto, Ontario | (647) 675-8793 | babamahmoudia@gmail.com | linkedin.com/in/ababamahmoudi256

PROFESSIONAL SUMMARY

CompTIA Network+ certified IT support professional with a 4.0 Computer Systems Technician diploma and hands-on experience with Cisco/Aruba networks, Windows and Linux systems, physical and virtual servers, and end-user support. Troubleshoot VLAN, DNS/DHCP, access, hardware, and connectivity issues; document clear fixes and communicate effectively with technical teams and users. Interested in supporting varied client environments across networking, cloud, and security.

TECHNICAL SKILLS

Networking: Cisco IOS, Aruba, switching, routing, VLANs, TCP/IP, subnetting, DNS, DHCP, NAT, LAN/WAN, Wi-Fi, VPN fundamentals

Systems & Cloud: Windows 10/11, Windows Server, Linux/Ubuntu, Microsoft 365, Active Directory, VMware, Proxmox, AWS and Azure labs, SSH

Security & Labs: firewall and access-control fundamentals, network segmentation, AlienVault OSSIM SIEM lab, log analysis, home lab with Aruba 6300 and Proxmox

Client & Service Support: incident triage, user access, remote and onsite troubleshooting, ServiceNow, ConnectWise, documentation, escalation, user communication

Diagnostics & Tools: Wireshark, Nmap, ping, traceroute, cabling and hardware testing, PowerShell, Bash, TeamViewer, AnyDesk, Remote Desktop

EXPERIENCE & PROJECTS

Laboratory Assistant (Part-Time) | Seneca Polytechnic | Dec 2025 - Present

- Support students and instructors in isolated networking, cybersecurity, and systems labs with Cisco/Aruba switches and routers, Windows/Linux workstations, physical servers, and virtual machines.
- Configure and troubleshoot VLANs, switch ports, access controls, DNS/DHCP, authentication, and connectivity; isolate faults through logs, SSH, Wireshark, Nmap, and configuration review.
- Prepare lab infrastructure for classes, test cabling and hardware, validate network services after changes, and resolve issues affecting users and equipment.
- Document recurring issues and fixes, explain technical steps clearly to users, and coordinate with faculty and technical staff on complex problems.

IT Support (Contract) | Arzon Supermarket | Mar 2025 - Mar 2026

- Supported staff and business operations across Windows workstations, POS terminals, barcode scanners, receipt/label printers, and handheld inventory devices.
- Diagnosed hardware, software, user-access, printing, LAN/Wi-Fi, and connectivity issues onsite and remotely using ConnectWise, TeamViewer, AnyDesk, and Remote Desktop.
- Installed and configured replacement devices, verified services after changes, and worked with vendors or other technical contacts to resolve escalated issues.
- Prioritized concurrent requests during store operations and documented troubleshooting steps and resolutions for follow-up.

Lab Consultant | York University School of Nursing | Sep 2025 - Oct 2025

- Translated stakeholder requirements into hardware, software, networking, and deployment needs for a new computer lab.
- Coordinated with university IT staff on domain joining, system configuration, equipment readiness, and deployment planning.

Networking & Security Home Lab | Personal Project

- Maintain a Proxmox lab with Windows/Linux virtual machines, Aruba 6300 switching, VLAN segmentation, routing, DHCP, firewall rules, and secure remote access.
- Built an AlienVault OSSIM security-monitoring lab to investigate simulated attacks and report findings; deployed an Apache web server in AWS.

CERTIFICATIONS & EDUCATION

CompTIA Network+ | 2026

Seneca Polytechnic | Diploma, Computer Systems Technician (CSN) | 2024 - 2025 | GPA: 4.0 | President's Honours List

Skills Ontario | IT Network Systems Administration Competition | 4th Place | May 2026

ADDITIONAL

English fluent | Persian/Farsi native | Authorized to work in Canada | Valid Ontario G driver's licence | Available for full-time work and client site visits
